By coursera

AutoCAD

Time duration 4 weeks

By Internshala

PROJECTS

Paddle Power Washing Machine

- Energy saving by which we can save water and electricity.
- Easy to operate, even kids can operate the machine .
- Economical it is much cheaper than that of electrical washing machine

INTERNSHIP

TATA Motors Pantnagar

- I got Internship at Tata Motors Pantnagar Unit
- During my time there, I was assigned a project as a quality inspector on the dressing line of the engine and I worked on that project for 1 month.
- As soon as I understood the full process, I was given the responsibility of checking the engine defects using visual inspection of the engine and checking the damage to the harness wires and the protective shields of the engine.
- I work with many different engines like the V20, the V30, the V40, and the V50.
